

# Extremely Sincere Advice

If you look, read and watch our stuff you might say:

What kind of message is that?

What kind of wording is that?

It is too much, too tough, it is not polite.

If you think this way, ask yourself which one is tougher, what you are hearing and reading from me or all the Signs which are happening around you everyday.

***Death, Hurricanes, Volcanoes, Earthquakes, Tsunami, Typhoon, Flooding, Earth movement, Hunger, Diseases, Burning, Bombing, Killing, Villages being swallowed, and finally the journey of death, the journey of the soul and the Day of Judgment ending with Hellfire or Paradise.***

Please Muslims readers or non-Muslims readers, our message compared to the truth, compared to the reality and compared to what is coming is **NOTHING**.

Sometimes medications taste sour or taste uncomfortable and it have side effects, but the main thing is the result- the cure.

If you understand the message and the reality of the message you will find that the wordings of Da'ee Ahmed Moait are so sweet and soft like ice cream.

If you understand the message and the reality of the message, if you just go and study the journey of death and the journey of the soul, you will see that our responsibility as Muslims is so great to ourselves and towards mankind.

O non-Muslim! Your responsibility is the same too; it is to save yourself from the hellfire.

We are supposed to prepare ourselves for the journey after death.

**Paradise is not cheap and hellfire is not easy.**

Do yourself a favor, the **biggest** one in your life, question yourself 1,000 times before you make any hasty decision. You will be the ultimate winner in this life and the hereafter.

Signed by  
Da'ee Ahmed Moait
